

Course Name	Teacher(s)	Contact Information	Gr Lvl(s)	Max # of Stu	Date and Time	Requirements or Prerequisites	Course Description
Advanced Exercise/ Training Program	Green Mancia	sgreen@gesd.us lmancia@gesd.us	7th	30	Wed 9:00 AM	None	This class gives students an in-depth look of the effects of exercise on the body. Students learn how to exercise efficiently and properly, while participating in physical activities and applying principles they've learned. Basic anatomy, biomechanics, physiology, and sports nutrition are all integral parts of this class. Throughout this course students participate in a weekly fitness program involving elements of cardio, strength, and flexibility.
Studio Art Club	Dale	cdale-hogrebe@gesd.us	7/8	30	Wed 10:00 AM	Students who have art experience or interest in sharing their creations and learning new techniques.	This will be a time to collaborate with other students who have an interest in Art. It will be your studio time to work on painting, drawing, ceramics, sculpture, photography, cartooning, sewing, knitting, sketching, computer graphics, or whatever creative interest you have. You will share your techniques, projects, learn about art careers and styles of other cultures and past/present artists. You will be able to use whatever materials are available at home.
Science Bowl	Castroll	scastroll@gesd.us	7/8	20	Wed 11:00 AM	Participation in the event will be determined by performance in training	10 will compete, need a minimum of 4 for one team. We can have up to 20 for training
Food Chemistry /Nutrition	McClure	emcclure@gesd.us	7/8	40	Wed 11:00 AM	Student must have permission to cook in their own kitchen and have a love for food!	Students will learn the nutritional components found in certain simple recipes that they can cook or prepare in their own kitchen at home. Students will be encouraged to try preparing simple recipes at home that they have researched themselves and share out their experiences of cooking with one another on Zoom meetings. Once we are back in the actual classroom, the students can meet once a week to learn to prepare nutritional beverages: breakfast smoothies, iced coffee, fruit teas, etc. and enjoy them together in class on a weekly basis.
Science Fair	Tang-Quick	ttang-quick@gesd.us	7/8	30	Wed 9:00 AM	Must have reasonable ability to obtain supplies for research	If you love experimenting, this class is for you! Students will have the opportunity to conduct research on a topic of their choosing, in consultation with the teacher. Individually, or in teams of 2-3, students will practice designing and conducting controlled experiments, recording their data, and ultimately create a trifold display board showcasing their findings and conclusions. Students will practice their speaking skills by sharing their findings with each other. The top projects will be entered into the LA County Science & Engineering Fair (March 2021).

Science Olympiad	Tang-Quick Naka	ttang-quick@gesd.us mnaka@gesd.us	7/8	30	Wed 10:00 AM	Must be willing to work hard to advance their understanding of various Science concepts	Students will prepare to compete in Science Olympiad Invitational throughout the school year. There are many different types of events from Chemistry, Physics, Astronomy, Earth Science, Biology, and Engineering.
